WEAVER'S VOTE IN THE COUNTY WAS CAST FOR CLEVELAND WHILE THE REPUBLICANS CHOOSE TO HAVE ELECTED THEIR GOVERNOR BY FROM THREE TO FOUR THOUSAND MAJORITY.

The returns from all the precincts in the county, not officially reported, indicates a victory for the Democrats, with one exception. C. J. Pratt (Rep.) for circuit judge, was elected by the county by sixty one votes.

C. J. Pratt has carried Caldwell, Crittenden and Hopkins counties by a majority over T. J. Nunn (Dem.) of 477. Unless Mr. Nunn comes out of Livingston county with a greater majority he must suffer defeat.

The Republicans have probably lost control of the United States senate along with the rest. This will give the Democrats complete control of the National affairs. We will see if they keep their promises.

Throughout Kentucky the secret ballot system worked to everybody satisfaction. The vote on official count will afford the Republicans a grain of comfort and the Democrats some uneasiness. The Democratic majority is somewhat lessened, probably due to too light vote.

THE QUESTION OF INTEREST.

The question of Siam has the smallest feet yet seen on a titled woman. She wears one and a half in boots.

Deer are so plentiful around McWhiggin, Mich., that they have to be stoned out of turnip fields.

Somebody claims that an electric plant has been discovered in India, which will influence a magnetic needle twenty feet distant.

The cry of a young seal when wounded or about to be attacked resembles that of a child in distress and tears flow from their eyes.

A chain, measuring three-quarters of a mile in length, in the logging camp at Clifton, Ore., is described as one of the longest in the world.

A woman teacher at Topeka, Kan., has taught school there for twenty-two years, it is said, without ever having missed a day's attendance.

A Kingston county (Kan.) farmer living in a Hoosier township, produced a pumpkin this season which weighed ninety-one and one-half pounds.

A footpad was recently arrested in a Hungarian town, and with him a bear that he had tamely taught to grapple with pedestrians whom he desired to rob.

There is a Hebrew Bible in the library of the Vatican for which was offered \$100,000 has been refused. It is probably the most valuable book in the world.

"Among the uses to which this photograph is being put is to record the symptoms in diseases of the respiratory organs for comparison with their action in health." In a New York medical college there are many cylinders illustrating the different form of throat and lung diseases. Photographs are also used for instruction in the pronunciation of foreign languages, and in elocution. Also, for identifying criminals registering their voices as photographs do their faces.

FATHERS OF GREAT MEN.

The father of Samuel Pepys was a tailor.

The father of James Mill was a cobbler.

The father of Verne was a day laborer.

Oliver Cromwell's father was a brewer.

Epictetus was the son of a day laborer.

Scottsboro was the son of a day laborer.

Glotta, the artist, was a peasant's son.

Talina, the actor, was a dentist's son.

The father of Pius V was a shepherd.

Schuman's father was a book-seller.

The father of Pius IV was a peasant.

The father of Cowley was a grocer.

Charles Lamb was a servant's son.

Mozart's father was a bookbinder.

Milton was the son of a copyist.

Pope's father was merchant.

Needham's father was a carter.

Lucian was a sculptor's son.

Homer was a farmer's son.

The reason for the entire subsidence of interest in the New York World's campaign fund for the "education of the Northwest" is now apparent. The discovery which has been made that the fund was to be utilized in distributing the World broadcast over the region. It was a sublime comedy game, in which guileless editors of Democratic papers were enlisted.—Boston Journal.

KENTUCKY WILL EXHIBIT.

The World's Fair Commissioners Elected Over the Decision of Judge Montfort—An Appeal is Taken to a Higher Court, but Kentucky Will be Represented.

Last Saturday morning when the papers in the mandamus suit against the Auditor by the World's Fair Commissioners counsel was filed before Judge Montfort, and when the demurrer to the answer was sustained, the court holding that the World's Fair appropriation is constitutional.

Mr. Davis read the petition, setting out the fact that the bill for the expenses has been duly approved, and then citing the Attorney-General's second opinion sustaining its validity.

Senator Goebel then read the answer of the Auditor, giving the history of the bill in the legislative branches, and stating that the passage of the bill had been called in question, and referring to Attorney General's first opinion advising the Auditor not to pay the money under the circumstances.

A general demurrer to the answer was taken by the counsel for the Commissioners. The journals of the Houses giving the whole history of the bills were also filed, making a voluminous record.

Mr. Davis stated that dispatch was imperative in the case. Judge Montfort said he was ready to hear arguments on either side, but none were made.

The court then announced that the demurrer to the answer was sustained and ordered the Auditor to pay the money.

An appeal was taken and the case was docketed at once in the court of the last resort. It was set for hearing on the 15th inst., when the tribunal re-convenes.

It is stated in late advices from China, that Chi Yui, a Chinese official of high rank, has been appointed minister to the United States to succeed Tsui Ko Yin, the present minister.

The general opinion called at the legation yesterday and saw the legation translator, the minister not being able to attend.

The legation translator said that the legation had not received an announcement of the appointment, but that they expected it, and if the appointment had not been made it probably would be.

He said that the name of Chi Yui had been presented to the emperor.

WASHINGTON LETTER.

From our Regular Correspondent.

WASHINGTON, Nov. 4, 1902.

There is very little talk about the political complexion of the next House, though there is a great deal of figuring. The Democratic majority is so overwhelming in the present House that it is almost a hopeless task to overcome it.

It can hardly be said that the Republican Congressional committee expect to have an opportunity at the next Congress to elect Mr. Reed Speaker, but they do expect the big Democratic majority to melt away very considerably at this election, preparatory to a final and complete disappearance.

From a conservative point of view the chances seem to be for the Republicans to make a gain of some forty-five or fifty seats in the House, some of which will come from the people's party.

In the neighborhood of forty to forty-seven are likely to come from the Democrats. Under the new apportionment the Democrats can count on but about seven of the additional seats, and leaving out Nebraska, as possibly subject to a claim from the third party, the Republicans can count with reasonably certain of fourteen of the new seats.

The Republicans are thus in position to count on a gain of some sixty old seats in the House, giving them in the neighborhood of a hundred and fifty, though they should make a very insignificant gain in the South and no extraordinary gain elsewhere.

The Democratic majority is, therefore, almost certain to be cut down about two-thirds, with very considerable possibilities below that. While there will be more alliance members in the House, the chances are against the Democrats to have more than a half dozen third party men.

Politics is not a taboos subject at the White House, but the interest manifested is of a subdued sort. The President has not lost the run of the campaign, nor have the employees about the place forgotten that there is a Presidential contest under way.

Still there is not that spirit surrounding the house that would be evinced had the recent events not cast such a shadow over the occupants. President Harrison and the Secretary of State, Foster, are the only ones of the official family who are now in the city, all the others being on the hustings and doing where it is most needed.

Yesterday when the cabinet of the under officials left the city, and from now on the Department work will be in the hands of chiefs considerably below Cabinet officers in rank. The White House looks somewhat deserted.

No Cabinet meetings will be held in the future, and every one there is work is being sustained, there being but little left demands the attention of the Executives. While the active work of the campaign is not being conducted from the White House, a keen interest is being manifested, and every one there is full of confidence that Mr. Harrison will be elected.

The President believes that he will win in the coming struggle, and talks with his friends in the most sanguine manner over the result, which he thinks can have but one outcome.

President Harrison will have a number of good-sized diplomatic plums to distribute if he is re-elected. No appointment is contemplated at present to fill the place of Gen. Bacheiler at Lisbon, ex-Gov. Foster at Rome, nor Mr. H. H. Constantine, and there are few applicants.

It is doubtful if any appointments are made in case of Cleveland's election, although men could probably be found who would be willing to go out for a few months for the sake of having an minister written before their names.

It is announced at the State Department that Patrick Egan will return to Chile. This evidently means that he wants to go back, and that the Government is so well satisfied with his course and his standing there that it is willing he should.

An important position which is still vacant is that of consul at Cairo, which was filled by ex-Representative Anderson, of Kansas, until last year.

There does not seem to be very strong pressure for the place at present, but candidates can doubtless be found after the election.

It is stated in late advices from China, that Chi Yui, a Chinese official of high rank, has been appointed minister to the United States to succeed Tsui Ko Yin, the present minister.

The general opinion called at the legation yesterday and saw the legation translator, the minister not being able to attend.

The legation translator said that the legation had not received an announcement of the appointment, but that they expected it, and if the appointment had not been made it probably would be.

He said that the name of Chi Yui had been presented to the emperor.

THE TERM OF THE PRESENT MINISTER.

ago. The State Department has no official intimation either from the U. S. State Department or from the Chinese legation in this city of the reported appointment of a successor to the Chinese minister.

Republicans who are on departmental payrolls have either gone to vote or are getting ready to do so. They are not making much fuss in their movement, but they are going north and south and east and west in greater numbers than ever before.

Nearly all the more prominent men have been in the field some time since and these are they who have stirred up their lagging brethren at the national capital.

STATE NEWS.

Mrs. John Shea, of Lacasser, died of consumption.

Pikeville is to have the best Court House in Eastern Kentucky.

It will take 100,000 brick for the foundation of the new hotel at Ashland.

It requires about \$150,000 a month to pay the teachers of Kentucky their salaries.

Mr. C. Hooper, 76, of Bellevue, fell asleep upon a coach and lay upon his right arm, breaking it in two places.

John Sisk, of the Liberty county, near Madisonville, dug 79 bushels of Irish potatoes from a planting of three bushels.

Detective John T. Neer is in Newburg, and will press the charges against Red Austin, the confidence man, who, if convicted on all the charges, will get 2 1/2 years in prison.

Sally Lamb, a country girl from near Louisville, in jail for stealing a ring, has fallen in love with Barney Heckard, a handsome convict, also jailed. They will marry when both are released.

Near the old Lemons mill at Georgetown, a dance was in progress, when Ed Smith and King got into a squabble. Smith, recently out of the State Prison, drew his pistol and shot King in the abdomen. King died a few hours later.

There were posted in W. T. Talbot's lively stable at Paris, at Col. Vincent, of New York, the following bets, with no takers: \$1000 to \$700 that Cleveland carries New York State even with Cleveland carries Indiana; \$500 even that Cleveland wins.

WHISTLE POSTS.

Mr. Jesup, formerly of Hopkinsville, is now our night yard clerk.

The pile driver crew has been doing some work at Kelley's the continuous rain for several days last week interfered somewhat with track improvements.

Fireman Bud Wendelkin made a visit to relatives in Mayfield, from which he returned last Sunday.

Supervisor Sullivan was at Henderson last week superintending the putting in of some new switches.

Stock Claim Agent Leslie represented the railroad company in an important case at Madisonville last week.

Some improvements in the drainage of the track will soon be made at several points along the Henderson division.

Smiling Foreman Harris has returned from a trip to Ohio. It is thought he went in connection with matrimonial affairs.

The Telegraph Company has another office in the field, and that is a telephone line from New York to Chicago, direct.

David Cansler, who for the past few months has been night and day yard clerk, is now taking a rest through no fault of his own as we have heard.

There is no class of men as mixed up about where they have a right to vote as the railroad boys, who have got in the habit of running wild in the State while pursuing their local avocation.

The S. E. Railroad company, whose track crosses the St. Lawrence River at Montreal, each winter lays about two miles of track on the ice, upon which it crosses the river in winter. For the purpose of saving freight at the rate of \$10 per car for crossing the bridge at that point.

Conductor Muir, through no fault of his own, is having a rather bad week with a negro, who it is said, had on his fighting clothes, and intended to shoot, the cause of which was too much red tape. The general opinion is that the man who has trouble with Mr. Muir is the one to be blamed, as Joe is very peaceable in mind.

While we have very few accidents on this road for a year or so, occasionally one occurs that is really remarkable, as was the case last week when several cars were badly damaged by a break in three parts, the particulars of which are about as follows: Conductor Askew and crew were enroute near Saddlers when the train broke in three parts, which was soon discovered, but before they could stop and connect the cars together again the third part broke loose, moving back into the rear of the train, and causing a collision as above stated. Some delay was caused to passengers and other trains by the accident.

A Modern Solution.

There is a new kind of "loving" which is known as "loving" (little Ours), which means that the love is in a ferment. At one time he claimed to have a specific for the cure of venereal disease, and, by means of emotional advertising, he succeeded in gathering a sufficient number of adherents to enable him to make a fortune.

The Chicago Central railroad, sponsored by the Society for the Abatement of the Smoke nuisance in Chicago, are making an effort to improve the smoke nuisance, after there will be no complaint on the smoke account.

"The smoky locomotives of the Illinois Central Railroad have been specially favored with attention by the Society for the Prevention of Smoke in Chicago, and as that organization has the might of the law behind it, the railway company has been trying to abate the nuisance.

All its Chicago engines have been fitted with some form of steam jet, or other tube, and the Society has been busy being fairly successful in its efforts. Another device has been tried, but it has been found that the fire-box of a locomotive is nothing but a big metal box, with ropes of holes in one end, and the tubes are inserted, and the doors at the other end. The locomotives in question have at the front, or boiler tube, end of the box an end of brickwork which serves to deflect the flames and otherwise improve the efficiency of the engine or the door and about a inches apart. They are about 10 inches wide, and have been found to counter cost as well as to prevent smoke. When the fire-box is very short but one of these smaller articles are used.

A Mammoth Truck Procession Here Last Saturday Night—Several Hundred of the Faithful in Line.

Early Saturday evening the Republicans of this city, several hundred in number, formed a line and headed by a marching band, marched through the streets. The procession formed in the west end and after making the round of the city, disbanded at some hall, where a large crowd had congregated to hear Hon. John P. Frank discuss the political views of the campaign. The large number at any public speaking here turned out upon this occasion.

White Caps in Union City.

Tuesday night White Caps at Unionport put in their first appearance in this county. It was a sensational affair in which a Marshal Haywood, possibly, wearing light and foot race generally figured prominently. Fortunately nobody was hurt, although forty or fifty pistols were fired and as much noise and excitement prevailed. Some interesting developments are promised in the near future in connection with the episode.—Morgantown Star.

John Spangler came over from St. Charles Sunday to see his wife and baby, and accidentally to meet the ladies of the church, who were visiting in the city. He was well and happy, and his wife and baby were well and happy. He was well and happy, and his wife and baby were well and happy.

Mr. J. H. Pratt conducted divine service and delivered a very good sermon Friday night we were late getting at our desks, so had to continue it until Monday night.

WHEN AND WHAT TO WRITE.

Be Careful That Your Signature Does Not Get You Into Trouble.

One cannot be too careful in the matter of one's signature; people who are careless in this respect are sure to have trouble. MIGHT HAVE BEEN.

A wall of roses in the street,  
A wild of mignonette,  
As splash tangled in a veil,  
The sparkling gleam of eyes,  
A hint of laughter in an eye,  
A dimple in a chin,  
A wide-eyed gaze, twinkling feet,  
And this is Might Have Been!

She looks me not, she passes by,  
Sedately on the go,  
She crushes her bonnet her feet  
As lightly as a rose,  
And yet I love her cruelly,  
"Despite her constant 'No,'  
For she is always Might Have Been,  
And I am so-and-so."

Oh, girl of mine, sweet girl of mine,  
Turn round your pretty head,  
And smile upon me once again  
As in the days long dead,  
Glad to look from your veil,  
Uplift them unto me,  
Reveal the soul that stars your eyes,  
And Might Have Been will be!

HOUSEHOLD BRIEVITIES

**Spice Cakes.**—A cupful of butter, a cupful of sugar, half a cupful of molasses, a teaspoonful of soda, a teaspoonful each of ginger, cloves, cinnamon and nutmeg. Mix with flour enough to make a stiff dough, and cut in small oval or round cakes. Bake in a moderate oven.

**Small Rice Cakes.**—One quarter of a pound of rice, quarter of a pound of butter, four eggs. Beat the butter to a cream, add the rice, which should be well boiled previously. Add the sugar. Beat the yolk and white of the eggs separately. Stir in the yolk, mix well together, then add the white beaten to a stiff froth. Make a small paste and bake in gem tins. (Detroit Free Press.)

**Pickled Sweet Apples.**—Pare and cut them in quarters or eighths. Scalding in salt water. Boil in vinegar and sugar. Also. Cook tender in a strip of brown sugar and a pint of vinegar. If liked softer than this use more vinegar. Add cinnamon and other spices to taste. Cloves make apples dark, so use them sparingly; a little mace is liked by many. Tie the ground spices in a muslin bag and boil them in the vinegar. (Orange Judd Farmer.)

To break redundant hair peroxide of hydrogen as a local application to the scalp. It removes the hair, and the hair grows again. It is not a permanent remedy, but it will make impalpable a dark growth on the face of a sensitive girl. As a preliminary measure, it is well to wash the growth with a solution of soda. Then apply so that every particle of grease may be removed before applying the peroxide of hydrogen. (Detroit Free Press.)

**Breakfast Rolls.**—At night put one pint of milk on the stove to scald, then add two spoonfuls of sugar and one of butter; mix and cook, then stir slowly enough until done to make dough; add half a cupful of soft yeast, knead right off fifteen minutes, cover well and set to rise. If the weather is warm set in a cool place. Morning roll like biscuit dough, cut out with a cutter, spread with butter and double together, place on a tin and let rise. Bake in a moderate oven. (New York Observer.)

**Ham Toast.**—Chop fine enough cooked ham to make half a pint. Put one tablespoonful of butter in a frying pan and place over the fire. When hot, add a spoonful of flour and stir until smooth and fluffy. Gradually add half a pint of cold milk, and stir until the sauce boils, then season with one-tenth of a teaspoonful of cayenne and a half teaspoonful of salt. Add the ham, and cook for three minutes. Spread this on small slices of crisp toast. Put a poached egg on each slice and serve at once. (Good Housekeeping.)

**Cure of the Sick.**—Keep the sick in a quiet, sunny room, with an open fireplace, if possible. Remove all heavy curtains, light covers, hangings, and all unnecessary furniture. Keep the temperature just below seventy degrees. Have as far as possible no visible evidence of medicine about the room. Keep the patient cool, clean and neat, and encourage her to habits of cleanliness. Allow no perfumes to be used. While waiting for the sick woman's gown that will wash and feel slippery. Feed your patient often, and arrange the food attractively. Do not allow wild flowers to remain in the room. (Ladies Home Journal.)

To Cure a Cold.  
Colds neglected are the foundation for many of the diseases affecting man as well as domestic animals. A cold closes the pores of the skin, the refuse matter of the body that usually escapes through the outlet is thrown back upon the lungs, into the blood, and thence upon the liver, affecting the stomach, bowels and every function of the body.

To cure a cold, take a large dose of Carlsbad's German Liver Powder at bed time. This will clean the bowels, stimulate the action of the liver and aid digestion. Then take ten grains of quinine, and, if possible, a hot bath, or in some manner start perspiration. Keep yourself protected from cold on the next morning. This cold will be cured. This treatment never fails. Price 35c per bottle at Robinson Bros' drug store.

**Pneumonia "Dusts."**  
Don't mail any letter until you are sure that it is completely and properly addressed. Don't place the address on that there will be no room for the postmark. Don't fail, in the hurry of business, to write the name of the State you intend and not you own—a very common error. Don't fail to make certain that your manner of writing the name of an office or State may not cause it to be mistaken for one similar in appearance. It is often hard to write the name of the State in full.

Don't fail, if you are in doubt as to the right name of the office for which your letter is intended, to consult the Postal Guide, which any postmaster will be pleased to show you.

Don't fail to give the street and house number of the person for whom mail matter is intended in addressing it to a city or large town.

Don't mail any letter until you are sure that it is properly stamped.  
Don't fail to place the stamp in the upper right-hand corner.  
Don't write on the envelope. In handwriting, "Care of postmaster," etc.; it does no good, and tends to confusion in the rapid handling of mail matter.  
Don't fail to bear in mind that it is unlawful to enclose matter of a higher class in one that is lower, e. g., merchandise in newspapers.  
Don't mail any letter unless your address, with a request to return it, upon the envelope, so that in case of non-delivery it will be returned directly to you.  
Don't fail to give your correspondence your full address, so that a new postman cannot fail to find you.  
Don't fail to notify your postmaster of any change in your address.  
Don't trust to the fact that you are an "old resident," "well-known citizen," etc., but have your letters addressed in full.  
Don't fail, if you intend to be away from home for any length of time, to inform your postmaster what disposition shall be made of your mail.  
Don't delay the delivery of any mail-matter that you may take out for another.  
Don't fail to sign your letters in full, so that if they reach the Dead Letter Office they may be promptly returned.  
Don't, when you fail to receive an expected letter, change the postal service with its loss, until you have learned from your correspondent all the facts in regard to its mailing, contents, etc.

Sick Headache.

Nervous or sick headache is usually caused by derangement of the stomach. Most "headache cures" are narcotics, which deaden or paralyze the nerves communicating between the stomach and head. They are harmful and frequently dangerous. Carlsbad's German Liver Syrup goes to the seat of the difficulty, stimulates the action of the stomach and liver and removes the cause, frequently accomplishing a permanent cure. Take a dose of the Syrup when the first symptoms of an attack are felt, and it will usually prevent it. A dose after the attack, repeated in two or three hours, if not relieved, will usually cure the worst case. An occasional dose by persons subject to the disease is generally a sure preventative. Price 50c and \$1.00 per bottle at Robinson Bros' drug store. Sample bottles free.

PICKLED FROM PICK.

To rail at Marriage is a mode is surely shorter stupidity. For what can you expect from Cupid's votaries, but—cupidity?

A Fatal Glow.

Riggers—"What makes your nose so red, Mr. Reilly?"

"Then I suppose he lives on a mental reservation."

The Best of Reasons.

"Why didn't the heirs of old Bedouk contest his will?"  
"Well, you see, they were all lawyers, and they didn't see any money in it."

A Frank Admission.

"I tell you," exclaimed Mr. Blomson, of St. Louis, addressing with a Chicago man, "I tell you that St. Louis is the hottest town."

The Victim Paid.

Henson Lott—I saw your servant girl yesterday and she said your servant girl had gone away on a vacation.  
Horizon Eason—Yes, she went last week.

Henson Lott—Who is running the house in her absence?

An honest Swede tells his story in plain but unmistakable language for the benefit of the public. "One of my children took a severe cold and got the croup. I gave her a teaspoon full of Chamberlain's Cough Remedy, and in five minutes later I gave her one more. By this time she had coughed up the gathering in her throat. Then she went to sleep and slept for fifteen minutes. Then she got up and vomited; then she went back to bed and slept good for the remainder of the night. I gave her the croup the second night and she got the same remedy with the same good result. I write this because I thought there might be some one in the same need and not know the true merit of this wonderful medicine." Chas. A. Thompson, Des Moines, Iowa. 25 and 30 cent bottles for sale by St. Bernard drug store, Earlington; Ben T. Robinson, Morton's Gap, George King, St. Charles.

ANCIENT TELEGRAPHY.

A Great Convenience for Sending Instantaneous Messages.

The ancient Greeks and Romans practiced telegraphy with the help of pots filled with straws and twigs saturated in oil, which being placed in rows, expressed certain letters, according to the order in which they were lighted. But the only one of their contrivances that merits a detailed description was that invented by a Grecian general named Ennius, who thought that the time of Aristotle, intended for communication between the generals of an army.

It consisted of two exactly similar earthen vessels filled with water each provided with a cock that would discharge an equal quantity of water in a given time, so that the whole or any part of the contents would escape in precisely the same period from both vessels. On the surface of each floated a piece of cork, supporting an upright, marked off into divisions, each division having a certain sentence inscribed upon it.

One of the vessels was placed at each station and when either party desired to communicate he lighted a torch, which he held aloft until the other did the same, as a signal that he was all attention. On the sender of the message lowering or extinguishing his torch each party immediately opened the cock of his vessel and so left it until the sender relighted his torch, when it was once closed. The receiver then read the sentence on the division of the upright that was level with the mouth of the vessel and which, if everything had been executed with exactness, corresponded with that of the sender and so conveyed the desired information.—Industrial World.

Carlsbad's German Liver Syrup is the most pleasant and effective remedy known to act gently, yet promptly, on the kidneys, liver and bowels, and to cleanse the system effectually. It cures habitual constipation permanently, dispels colds, headaches and fevers, and prevents the many ills that attend a weak or inactive condition of the organs on which it acts. Price 50c and \$1.00 per bottle at Robinson Bros' drug store.
